	Product Modules - Technology & Device Licenses		
	Technology Licenses allow the installation of the associated software. Device Licenses are needed for each individual device using the associated Technology / Product Module.		
	Note that the usage of certain Product Module requires the licensing of one or more prerequisite Product Modules.		
	IP/MPLS Fault & Performance Product Module provides a complete end-to-end and network centric view of IP/MPLS networks. IP/MPLS Fault & Performance Product Module collates information from every device, then models and presents end-to-end IP/MPLS services such as TE-Links, tunnels, pseudowires, VPLS, VPWS and L3VPN as first class entities
